THE Magic Me Laboratory

Magic and Science

Ages 5 - 12

Discover STEAM Magic: Where Wonder meets future Innovation

Online & In-Person Activity

About

The Magic Me Laboratory is a Creative Learning Center dedicated to making Learning Exciting and Meaningful.

Our Educational Adventures blend the Magic of STEAM Science with the Science of Stage Magic, using a play-based, inquiry-driven, and socially interactive approach.

Lessons integrate Science, Technology, Engineering, Coding, Robotics, and the art of Stage Magic, equipping learners with essential 21st-century skills to thrive in an ever-evolving world.

Our Learning Adventures bridge the gap between academic skills and personal growth, helping students fully express their unique potential by harmonising the collaboration of their Head, Heart, and Hands.

At the core of our programs is our proprietary WIZARD Learning Framework, which emphasises the attributes of Wonder, Imagination, Zeal, Adaptability, Reflection, and Discovery. This innovative approach empowers students to think critically and creatively, learning HOW to Think instead of being told what to think.

Learning outcomes aim to cultivate Curious, Creative, and Connected individuals who are empowered to make positive, impactful decisions that benefit humanity.

Learners receive activity packs after each lesson, filled with materials used in class to practice skills, experiments, and tricks at home. Parents stay connected with weekly updates via our online classroom, featuring creative ideas to further extend learning beyond the lesson.

Join us for a free trial lesson Online or in Fourways and experience the wonder firsthand.

Let's make Learning an unforgettable Adventure together!

Duration

45 minutes once a week

Lesson times

In Person

- Wednesday, 15h00-15h45 **OR** Saturday, 12h00-12h45

Online

- Tuesday, 15h00-15h45 **OR** Thursday, 15h00-15h45

What our parents say...

"Both my children have attended classes by Dale from the Magic Me Laboratory. They absolutely loved the lessons! It sparked their curiosity, challenged their thinking, and opened up exciting activities and discussions. They would come home from each week with little activity packs - they were always so excited to show us what they had learnt. The extra material available on Google Classroom helped to expand their knowledge and skills. Dale is a phenomenal teacher who inspires children of all ages and abilities to marvel at the wonder of Science. Magic Me is a fantastic introduction to Science (and magic). I highly recommend The Magic Me Laboratory."

Bronwyn Dodds
Parent

STEAM meets magic

The Magic Me Laboratory program unlocks your child's unique potential by fostering a passion for learning and enhances their personal growth and character development. Our STEAM Learning Adventures seamlessly blends Science (experiments), Technology (drones, coding, robotics), Engineering (design and construction), Art, Math, and Stage Magic. Each lesson is crafted to encourage critical thinking, curiosity, and creativity through play-based, inquiry-driven, and collaborative learning.
